

VAL-001 — KPI Definition Validation

Status

Open

Priority

High

Objective

Validate and finalize all KPI definitions before SharePoint integration and UAT.

The goal is to ensure every KPI displayed in C3 reflects an intentional business rule rather than an implementation assumption.

Scope

Command Center

Validate:

- Total Contracts
 - Active Contracts
 - Renewal Window
 - Needs Attention
-

Contracts Workspace

Validate:

- Total Contracts
 - Active
 - Renewing
 - Archived
-

Renewals Center

Validate:

- Renewal Window

- Critical ≤ 30 Days
 - Renewal In Progress
 - No Action Taken
-

Validation Questions

KPI-001 Active Contract Definition

Current implementation:

Disposition1 = Active

Issue:

Some contracts are Signed and Operationally Active but Disposition1 is null.

Decision Required:

Should Active Contracts include:

- Disposition1 = Active only

OR

- Disposition1 = Active OR null

Expected Outcome:

Single approved Active Contract definition.

KPI-002 Renewal Window Definition

Current implementation:

Disposition1 = Active AND DaysToExpiry ≤ 90

Validate:

- 90-day window is correct
- Renewing contracts should be included or excluded

Expected Outcome:

Approved Renewal Window formula.

KPI-003 Critical Definition

Current implementation:

Disposition1 = Active AND DaysToExpiry <= 30

Validate:

- 30-day threshold is correct

Expected Outcome:

Approved Critical formula.

KPI-004 Renewal In Progress Definition

Current implementation:

Disposition1 = Renewing

Validate:

- Renewing disposition correctly represents active renewal work

Expected Outcome:

Approved Renewal In Progress formula.

KPI-005 No Action Taken Definition

Current implementation:

Renewal Window contracts excluding Renewing contracts

Validate:

- Formula correctly identifies contracts requiring action

Expected Outcome:

Approved No Action Taken formula.

Deliverables

For each KPI:

- Definition
 - Formula
 - Expected Result
 - Actual Result
 - Pass / Fail
-

Exit Criteria

All KPI formulas approved.

All KPI values match expected calculations from test data.

No unresolved KPI discrepancies remain.
