

One thing I would tweak

The timeline is now completely empty.

Technically correct.

But visually:

90 Days 0

60 Days 0

30 Days 0

14 Days 0

7 Days 0

Expired 0

takes up a lot of space.

I wouldn't change it now.

I'd add a future item:

VAL-001C

Collapse Empty Renewal Buckets

Rule:

If bucket count = 0

hide bucket

Then the screen becomes:

Needs Decision

Renewal In Progress

until there is actual residual workload.

Not urgent.
